This luxe eco-lodge sits on a lushly landscaped property amidst swaying trees filled with the fluttering and chirping of tropical birds and butterflies. Its position just south of Hopkins village, on a beautiful stretch of beach in the Stann Creek District, makes this an excellent jumping-off point for the best Belize has to offer, both inland and offshore. The resort offers jungle treks during which visitors can hike to inland waterfalls or Mayan Ruins, explore caves, and paddle mountain rivers. Top attractions include Blue Hole National Park, Cockscomb Basin Wildlife Sanctuary and Jaguar Preserve, and the ruins at Xunantunich.
