Hamanasi

The Lion (Fish) Sleeps Tonight

Lionfish are native to the Pacific, but they're an invasive species in the Caribbean coast, with voracious appetites and no natural predators. Help solve the problem at Belize's Hamanasi Adventure and Dive Resort, spearfishing for lionfish with the help of a divemaster. Then eat your catch courtesy of the resort's chefs; lionfish is said to be delicious pan-fried with butter, olive oil, garlic, bell pepper, onion, and white wine. \$165.
